HEALTH & WELLBEING TIPS FOR YOUR WORK & LIFE

PRESENTED BY IRONWOOD, A MARSH MCLENNAN AGENCY LLC COMPANY

988: America's First Three-Digit Mental Health Crisis Line

The [988 Suicide and Crisis Lifeline](#) (Lifeline) launched nationwide on July 16. Similar to dialing 911 for medical emergencies, people in emotional distress or suicidal crisis can call or text 988 and be connected immediately to trained counselors who will listen, provide support and connect people to resources if necessary.

The three-digit dialing code is new, but the Lifeline is not. Previously known as the National Suicide Prevention Lifeline, callers only reached the 24/7 national crisis hotline by dialing 1-800-273-8255 (TALK). The easy-to-remember dialing code (988) is meant to replace that number; however, callers will still be connected to the same services, regardless of which number is used. The Lifeline provides services in both English and Spanish.

988 SUICIDE & CRISIS
LIFELINE

Since 2005, the Lifeline has been a network of roughly 200 crisis centers funded by the U.S. Department of Health and Human Services' Substance Abuse and Mental Health Services Administration. Since its founding, the Lifeline has received more than 20 million calls from people in distress looking for help when they needed it most. Nearly 2.4 million calls occurred in 2020 alone, illustrating America's current mental health crisis.

Suicide is the second leading cause of death amongst preteens and adults aged 25 to 34, according to the Centers for Disease Control and Prevention (CDC). The Lifeline is a direct connection to compassionate, accessible care for anyone experiencing mental health-related distress, including thoughts of suicide, mental health or substance use crisis, or other emotional struggles. People can also call the Lifeline if they are worried about a loved one who may need emergency support.

Just as Americans know to call 911 in a medical emergency, it's vital to spread the word about 988 in your own state. This new three-digit dialing code will provide immediate support to those in need.

CUCUMBER SALAD WITH TOMATOES

Makes: 4 servings

INGREDIENTS

2 cups cucumber (diced)
 1 cup tomato (seeded and diced)
 1/4 cup onion (chopped sweet)
 2 cups couscous or rice (cooked)
 2 tsp. dill weed (chopped dried or fresh)
 1/2 cup low-fat Italian salad dressing

PREPARATIONS

1. Toss all ingredients together
2. Chill for one hour
3. Serve

Safety Tips to Beat the Heat

Summer heat can be more than uncomfortable; it can threaten your health, especially for older adults and children. Hot and humid weather can make it more challenging for your body to cool down, leading to heat-related illnesses. Heat cramps, heat exhaustion and heatstroke are all serious illnesses and, if left untreated, they can become life-threatening.

Don't let the summer heat get the best of you. Consider the following tips to prevent heat-related illness:

- Drink plenty of fluids
- Eat light, refreshing foods
- Wear lightweight, light-colored and loose-fitting clothing
- Apply sunscreen and wear a wide-brimmed hat and sunglasses
- Do chores or other outdoor activities in the morning or evening
- Stay indoors as much as possible or take breaks from being outside

Keeping these tips in mind means you're on your way to beating the heat. Learn more about the symptoms of heat-related illnesses below.

The Warning Signs of Heat-related Illnesses

Heat Cramps		Heat Exhaustion		Heatstroke	
	Heavy sweating		Heavy sweating		Body temperature above 103 F
	Muscle cramps		Cold, pale and clammy skin		Hot, red, dry or damp skin
	Fatigue		Nausea or vomiting		Rapid, strong pulse
	Thirst		Dizziness or fainting		Confusion

Are You Up to Date on Your Immunizations?

August is recognized as National Immunization Awareness Month to promote the importance of immunizations at all life stages. Vaccination protects against severe illnesses and complications of vaccine-preventable diseases. Such illnesses include measles, polio, hepatitis, meningococcal meningitis—and now, [COVID-19](#).

Vaccinations are so vital that the CDC offers immunization schedules to help you understand if you or other loved ones are up to date on vaccinations:

- [Infants and children](#) (birth to age 6)
- [Preteens and teens](#) (ages 7 to 18)
- [Adults](#) (ages 19 and older)
- [Pregnant women](#) (before, during and after pregnancy)

Talk to your doctor for more information on vaccines or to learn more about which ones you may need.
